

LaFleur named LEDA vice president

Lafayette, LA— Pamela LaFleur was recently named Vice President-Administration of the Lafayette Economic Development Authority (LEDA). As Vice President she will provide support and liaison services to the President, handle internal staff issues, legislative issues, and serve as a backup to the President when needed. LaFleur will continue her role as LEDA's Administrator handling the day-to-day operation, maintenance and contractual agreements of the LEDA Resource Center and LEDA's four industrial parks, as well as human resource functions. She has been employed full-time at LEDA since 2002.

“Since starting as an intern while a student at UL Lafayette, Pamela has displayed an eagerness to learn and a desire to improve both herself and LEDA,” says Gregg Gothreaux, LEDA President & CEO. “She understands that economic development is a process, and we look forward to her continued leadership in LEDA's future endeavors.”
